

The directory MATLAB\Documentation\tutorial2 contains a self-sufficient introduction to SAISIR (with no reference to MATLAB programming. If you need an introduction to MATLAB, go in the directory MATLAB\Documentation\tutorial1).

The lecture is given in the document tutorial_SAISIR1.pdf and tutorial_SAISIR2.pdf

The corrections of the exercises are given as MATLAB script in the directory exercises. The data for the exercises are in the directory data.

Some exercises deal with typical situation in chemometrics. The list of the corresponding exercises is given in the file typical_examples.txt.
